

**Mission statement** - Empowering our community to empower veterans

**Area of Service** - Central Indiana

**Service Number** - (317) 352-5413

**About** - Indy Warrior Partnership (IWP) is a program run by veterans, for veterans that focuses on connecting with and building a local community of, and for, veterans. Our goal is to connect veterans with local resources dedicated to them, educate veterans and local businesses about each other, collaborate with organizations to help veterans, and advocate on behalf of veterans to promote local support.

We know that most veterans are living their lives proud of their service and don't need any special services right now. IWP is an effort to connect us to each other so that we can support those veterans when they need it and reach out to other veterans when WE need it. Come and join the veteran community here in Indiana and "be known" as a veteran. You'll have access to hundreds of local resources and thousands more national resources.
