

AMERICA'S WARRIOR PARTNERSHIP

Together,
we can
do better

2022 was a big year here at America's Warrior Partnership-

full of growth, announcements, and positive changes. Everything at AWP starts with doing the work, then telling the story, and followed by sustaining the mission. We will continue to refine our work by growing in reach and awareness and keeping the focus on communities and veteran suicide.

In September, we released the initial Operation Deep Dive™ Interim Summary Report identifying a veteran suicide epidemic far worse than previously reported by the government. The report was widely accepted for its thoroughness and unique perspective on this critical issue. For the first time, detailed military service experiences were matched to causes of death revealing patterns that service, community, and environment play in preventing premature death such as suicide or overdose. However, Operation Deep Dive™ is not complete. We will continue to gather data from additional states and begin to move into the prevention phase of the study with our partners at Duke University. In this phase, we seek to characterize the veteran within a specific community most at risk from dying prematurely from suicide, overdose, or exposure-related cancers.

AWP's Community Integration model continued to drive our work. We launched two more community branches, for a total of five now, as well as our four Community Affiliates. They are maturing and becoming a critical part of the communities where they are located. We continue to prove that our community model is easily adopted and tremendously impactful. Our approach to Connect, Educate, Advocate and Collaborate builds strong relationships with veterans and their communities. Community Integration is proving to be less of a program and more of a movement by providing much-needed services for the few, and a purpose for most veterans who are excelling in life.

AWP's Network, powered by our proprietary technology platform WarriorServe®, continues to lead the way for more veterans to find assistance in remote and tribal areas or where local community resources have been exhausted. It's a robust network to find and connect our veterans to the assistance they need to improve their quality of life and hope. The AWP Network has increased its community leader relationships in over 832 counties, representing 50 states and territories in over 2,500 veterans' issues with a 91% success rate.

AWP's Corporate Veteran Initiative (CVI) continues to be a driving force to help our corporate partners and the veterans they employ. With a changing economy and business climate, companies have a lot of things

to focus on to stay competitive, including employee recruitment and retention. However, despite a vast majority of veterans being in the workforce, the workforce is not focused on veterans. Through the use of the partnerships with the AWP Network, AWP is able to differentiate itself from other organizations by successfully using CVI to improve the quality of life for those inside the corporate employment structures. This leads to better recruiting and retention for the employers, and better outcomes overall for the veterans - thanks to the unique CVI program available at AWP.

Throughout 2022, it was clear that AWP was doing the work, but it was also a year of telling our story to a broader audience and redefining our brand. We rolled out a more user-friendly website, adjusted our mission from "Empowering Communities to Empower Veterans" to "Partnering with Communities to Prevent Veteran Suicide" and rebranded our core national brand and branch brands. These changes more effectively communicate the purpose of our work and better align with our belief that if a community holistically improves a veteran's quality of life and hopefulness, the suicide rate will drop. Throughout the year, AWP was successful in communicating the message through countless media appearances. AWP will continue to engage and tell the story through tv/radio interviews, newspaper articles, letters/opinion-editorials and on digital platforms.

Together, we can do better. AWP is focused on serving veterans at the local and national levels, informed by the research of Operation Deep Dive™. The next year will further refine the focus on communities and veterans' suicide, and AWP will continue to do the work and tell the story. The upcoming year will also see a bigger focus on sustaining the mission. This will involve developing more relationships in the communities and at the national level, and working closely to further develop existing relationships.

We will always act to improve veteran quality of life to prevent suicide across our nation. We will continue this path to support all of our nation's veterans, regardless of the era served.

Sincerely,

A handwritten signature in black ink that reads "Jim Lorraine". The signature is fluid and cursive, written over a white background.

Jim Lorraine
*President & CEO,
America's Warrior Partnership*

Our Mission

Partnering with communities to prevent veteran suicide.

National

The AWP Network continues to bridge the gap between national resources and local communities to ensure veterans, their family members and caregiver's unique needs are met.

Our multi-year study of former service member suicide and self-injury mortality, Operation Deep Dive™, released the interim report in September and continues to expand state participation.

Communities

We build relationships with veterans, their families, caregivers and the communities in which they live. Our 5 community branches use the Community Integration model, a proactive approach to improve the quality of life of a veteran through an individual approach, therefore reducing veteran suicide. It is a Four Step Plan to **Connect, Educate, Advocate, and Collaborate.**

REBRAND

We are excited to have you be a part of where we have been, where we are now, and where we are going. We launched updated national and branch branding at our 9th Annual Symposium to the audience in person in Atlanta, GA and virtually.

Each element of our new logo has a deep meaning and connection to our mission:

- **Swoosh**- represents the forward motion in our drive to lead the way to bring

change and resources to our nation's heroes.

- **White Star**- symbolic of families who have lost a loved one to suicide.
- **Colors**- Our new color scheme is red, white, and blue. This embodies who we are – patriotic Americans boldly advocating for our nation's warriors.

Alaskan Veteran Is Uplifted From Tragedy During the Holidays

For many veterans, life throws tragic curveballs that can leave them feeling helpless. This was the case with Bryan Aucremanne, a Vietnam-era Navy veteran referred to Alaska Warrior Partnership (AKWP) by Senator Sullivan's office for support with his surgery recovery needs. Bryan suffered from a tumor on his eye that he had scheduled to be removed in December. Unfortunately, tragedy would strike two months prior to his surgery; Bryan's wife passed away. While dealing with the loss of his wife, Bryan was also faced with the issue of being left alone during his recovery period. Because he had no one to be with him for 24 hours after the surgery, the facility was concerned they would have to cancel. Bryan was rightfully frustrated and upset, especially with the holiday season approaching. This is when AKWP Program Lead, Amanda Marr, was contacted for assistance.

Spotlight on Advocacy

America's Warrior Partnership participated in numerous advocacy activities to represent the interests of our veterans and communities.

Testified before Congress on veteran suicide and Operation Deep Dive™ (September 29)

Worked closely with House and Senate Veterans Affairs Committee on veterans' access to care, and provided technical input to legislation on the issue

Met with high-level VA officials on several occasions across the United States to raise concerns and highlight issues

Drafted letters to Congress and assisted Members of Congress in crafting letters to the VA

Routinely met with House and Senate members, including responding to requests for updates and briefings, and dozens of meetings with senior staffers on the Hill

Continued Holistic Support for Struggling Indy Veteran

Being stressed about where you're going to sleep at night is something that no one should have to endure. This was the case for Rodney*, a 14-year Army National Guard veteran who was referred to Indy Warrior Partnership (IWP) for housing assistance. Rodney served in the Army National Guard from 2004 until 2018, including a tour in Iraq in 2009. As of recently, he did not have a reliable home, transportation, or source of income. Rodney took the first step in reaching out to the City of Indianapolis Director of Veteran Services, who referred him to IWP. This was when IWP Community Coordinator, Abby Pequignot, was contacted by Rodney for veteran support.

IT'S BEEN A MILESTONE YEAR AT AWP!

Operation Deep Dive™

Summary of Interim Report

MAJOR FINDINGS

State and Federal Under Counting of FSMs in 2014-2018

EXECUTIVE SUMMARY

Operation Deep Dive™ (OpDD), a former service member (FSM) suicide and self-injury mortality (SIM) study encompassing eight states and five years of death data corroborated by the Department of Defense (DoD), indicates that FSMs take their own lives each year at a rate approximately **2.4 times greater** than previously reported by the Department of Veterans Affairs (VA). OpDD™ data analytics was able to identify FSMs with the greatest probability of taking their own life. This interim report highlights the need to expand data sets to include additional states and the VA, and jointly identify suicide and SIM prevention efforts for FSMs. The implications of the data for prevention analysis and prevention application raise awareness to help prevent FSMs from taking their lives because **“Together, We Can Do Better.”**

For full report please read here: <https://www.americaswarriorpartnership.org/deep-dive>

Community Integration

Community Integration is a holistic veteran-focused, community-led initiative. It is to proactively connect with all veterans including family members and caregivers and ensure access to resources and opportunities available in collaboration with local communities. We aim to cultivate integrated, resilient, and prosperous veteran communities across the country by improving veteran quality of life, thus ending veteran suicide.

Community Integration is a one-size-fits-one model that improves a veteran's quality of life with the upstream approach. This upstream approach to veteran empowerment is a four-step plan to Connect, Educate, Advocate and Collaborate with veterans, their families, and the communities that support them. Currently, this Model is being used to support over 60,000 veterans across the country.

Branches:

Alaska Warrior Partnership
(State of Alaska)

Diné Naazbaa Partnership
(Navajo Nation area)

Indy Warrior Partnership
(Central Indiana)

Panhandle Warrior Partnership
(Panhandle of Florida)

The AWP Network

The AWP Network bridges the gap between national resources and communities. It serves veterans and their families to improve their quality of life, thus helping to end veteran suicide. We work to expand the AWP Network to reach and impact a larger percentage of the 17 million veterans.

The AWP Network partners with numerous national organizations and attends conferences to create new partnerships and develop new processes for addressing veteran needs. In 2022, we attended the NASDVA (National Association of State Directors of Veterans Affairs) Mid-Winter Conference and NASDVA Annual Conference, NACVSO (National Association of County Veteran Service Officers) conference and NASWA (National Association of State Workforce Agencies) conference. We participated on panels that resulted in new connections with DVOP (Disabled Veterans' Outreach Program) and LVER's (Local Veterans Employment Representatives) representatives around the country. We have used those new connections to assist us in our efforts to help veterans who are seeking employment.

WarriorServe® is America's Warrior Partnership's proprietary technology solution that helps strengthen data collection and coordinate services between partner organizations. Built on the Salesforce® platform, it enables us to coordinate services, build advanced data analysis, and evaluate outcomes.

"I called when I was struggling and needed help. The AWP Network took one problem at a time and made me feel like someone cared about my issues. They were willing to do everything in their power to help. They may not have known some of the answers when I called, but they assured me that they would do what they could to find the answer, and they always did."

Joshua, Post 9/11 Army Combat veteran.

The 9th Annual Warrior Community Integration Symposium

The 2022 Warrior Community Integration Symposium hosted by America's Warrior Partnership and presented by Wounded Warrior Project had a call to action for attendees to "lead the way". Highlights included the opening keynote address by Mike Hall, Executive Director of the Three Rangers Foundation, a keynote address by John Boerstler, Department of Veterans Affairs Chief Veterans Experience Officer, the Leo K. Thorsness Leadership

award presentation to Dr. Phil Roe, and a fireside chat facilitated by Jon Scott with surviving family members, Marc and Jamie Kuney. We are grateful to each of our registrants for participating and sharing best practices and our sponsors who made the event a success! It is truly each of you that make the conversation so valuable. We look forward to seeing you in Syracuse, NY August 1-3, 2023 for the 10th Annual Warrior Community Integration Symposium

Symposium Key Metrics:

436 LIVE ATTENDEES

35 UNIQUE SESSIONS

90% of attendees surveyed stated their knowledge of Community Integration best practices increased

Number of individuals achieving the Competency Certificate

Corporate Veteran Initiative

The Corporate Veteran Initiative (CVI) incorporates the AWP Community Integration Model and applies it to the workplace. AWP developed CVI to proactively connect with veterans in the workplace and ensure access to quality resources and opportunities available in collaboration with companies and the surrounding local community. CVI is a veteran-focused solution that empowers companies by providing individualized support for military-connected employees and consulting with company team members and leadership. The initiative brings together company expertise and AWP expertise as a force multiplier. AWP works in collaboration with employers to connect employees to resources, educate them about their benefits/opportunities available, and advocates on their behalf to get them the benefits they have earned.

Notable Collaborators:

“UBS is proud to be one of the very first companies to sign on to the CVI, and it is one of the best decisions I’ve ever been involved with in my civilian career”

Chris Isola, Head of Military Affairs at UBS
